

# We Cannot Let Them Get Away With This

Planned Parenthood would for us like to just blow-off the killing of Tonya Reaves like it was an accident or medical malpractice. It was neither. The fact is, this killing fits perfectly within the scope of an Illinois law called:

## “Depraved Indifference Murder”

If Tonya had been killed by the **Klan**, we would be in the streets demaning justice. She doesn't deserve less just because she was killed by **Planned Parenthood**. Call the **NAACP** and make it clear that you expect them to start pushing the authorities in Illinois to launch a criminal investigation into this young woman's death. **Call today and call often!**

**TONYA REAVES**

**MURDERED**

## July 20, 2012 ...

- 24-year-old Tonya Reaves walks into to a **Planned Parenthood** facility in Chicago for an abortion.
- During the procedure, the abortionist **rips a hole** in her uterus and she begins to bleed out.
- **More than five hours later**, an ambulance is called – but it was too late. Later, an autopsy finds that Tonya had lost approximately one-third of the blood in her body.

**It is not unusual for a woman's**

uterus to be torn during an abortion.

However, these injuries are not always

fatal and, in this case, if emergency treatment had not been withheld for more than five hours, it is almost certain that Tonya **could have survived**.

But the staff at this Planned Parenthood abortion clinic knew that it is bad public relations for one of their customers to be wheeled out on a stretcher.

**So they let her bleed to death.**

# Why is the **NAACP** in bed with **Planned Parenthood**

## A Scandal of Silence

When the leadership of the **NAACP** decided to look the other way at the killing of Tonya Reaves, they totally **shredded** whatever credibility they had left. These people can complain all they want about the growing view that they are **irrelevant**, but the truth is ... that is the reputation they earned. For years, they have been both a **political and financial accomplice** of Planned Parenthood – despite knowing that this multi-national corporation has a well-documented **eugenic** and **genocidal**

plan to control the U.S. Black population. The fact is, **the NAACP is owned** by this corrupt organization and that is why they are willing to help them sweep this young woman's dead body under the rug.

## A GOLD REALITY ...

**The African-American community has been SOLD OUT by the NAACP and the rest of the civil rights establishment.**
